**Gobosh 700s Now  
Part of the Cross  
Country Fleet.**

By popular demand, the Gobosh 700s LSA has been moved to the Cross Country Fleet. This amazing little plane is so much fun that more and more pilots want to take it on trips. So at your request, there are no more daily minimum rental requirements for the Gobosh LSA.  
Blue Skies!

## **Class Multi-Engine 101**

**Saturday September 19th**

**9am-1pm  
Tuition \$30.00**

**Saturday September 19th. 9:00 am to 1:00 pm**

*Dave Franklin CFII, MEI* invites you to join us for this outstanding class which will prepare you to begin training for your Multi-Engine Certificate.

Using the 1981 Turbo-Seneca II C/R as the featured airplane, this class will journey into the world of twin engine aircraft and answer many of the "how-to" questions regarding flight training and passing the Multi Check Ride.

Seating limited to 15. Call for a reservation. 909-917 5851

**Turbo Charged!**

**September  
Special!**

**\$30.00 Off  
Seneca II**

Piper Turbo Seneca II  
Counter Rotating Props. Garmin 430. Only  
\$208 / hour during September. Regular \$238

**Mt. Sac Students ask for special discounts.**

Congratulations to Harold Dyck who soloed his 1941 Porterfield on 7 JUL 09

Congratulations to Terri Hall who made her first Solo Flight on 11 Aug 09. Tony Gadis CFI cuts the shirt of her back!

Congratulations Roc Caldarone who made his first solo flight in the Piper Warrior on 30 August 2009. Kevin Marpert CFI

**Daniel Gonzales**, of the Ontario Police Department Air Support Unit based at Cable Airport, completed his Private Pilot-Helicopter rating and passed his checkride on August 5, 2009. Dan performed his training at Western Helicopters, Inc, Rialto, in the Schweizer 300C Helicopter. **CONGRATULATIONS DAN!**

Bob Spencer Chief Instructor  
Western Helicopters, Inc.  
(909) 829-1056

**Lease Opportunity Available.** Lease your brand new American Legend Cub to Foothill Flying Club. Do it before the end of the year for possible tax savings. Call Tony or Kent for more information. 562 505 6518

Congratulation to Sije Contreras who completed his Private Pilot Check Ride on 3 August 2009. CFI Ron Meyer DE Ken Earl

**American Legend Cub Light Sport Aircraft**

The Legend Cub is the best selling American made Light Sport Aircraft. Buy, Fly, and Rent a Legend at Foothill Flying Club, bringing you only the finest of aircraft and customer service.

## 1st ANNUAL TAIL DRAGGER FLY-IN

By Terri Polley

A Flying Bathtub, Wingiel, Waco and Whitman Tailwind. A Tiger Moth, T-6, Staggerwing, Antonov, and Stinson. Three Porterfields, a Stearman, two Taylorcrafts, a Husky, two Kitfoxes, three RVs, Fairchild, numerous Cubs and one Cessna 150. What was going on at the southwest ramp??

The 1st Annual Taildragger Fly-In! Cableites and visitors came from all over the valley to share tailwheel camaraderie and enjoy some tasty brisket BBQ prepared by Maniac Mikes "Shot Low". It was a hot day, but a chair with a cold drink in the hangar shade was a cool place to sit and enjoy the runway activities.

Dave Anders and his Flying Bathtub left early afternoon for home (Rialto) - a 40 minute flight!! Departing planes treated all to numerous fly-bys.

In the cool of the evening, Roland Furman's Orchestra struck up the band with some foot-stompin' 40's big band sounds. Rosie LaForge crooned a couple of tunes while Bob Cable—complete in Zoot Suit, cut up the dance floor. Cool moves Bob!!

It was a great day—just what Mike Polley wanted for his 50th birthday!!! Happy Birthday Mike!!!

Taylorcraft  
Husky &  
Tiger Moth

The Flying Bath-

50 years ago, Ken drove  
one for real!!!

Wingiel

Great BBQ, Shot Low

With the band

# CABLE AIR SHOW 2010

The Air Show Committee had their first 2010 planning meeting in May, 2009. However, September starts the countdown. It is hard to believe that all of you should soon be getting a letter in the mail requesting support and participation in the 35th annual Cable Air Show and 2010 is the 65th anniversary of Cable Airport!!! We are looking forward to good things.

Before the ink was dry on the 2009 reports, the following people/organizations pledged their support. Lets give them all a big hand of applause for stepping up early!!!

Cable Air Show is conducted as an activity of the Cable Airport Foundation, a 501 (c) (3) organization. Accordingly, donations to the Cable Air Show qualify as charitable contributions under IRC sec. 170.

The primary mission of the PVPA, EAA Chapter 448 and the Cable Airport Foundation is to provide scholarships for individuals to pursue aviation education and training. Money for these scholarship funds are publicly supported through donations and fund raising events. We all want to give our young people an opportunity to get involved with general aviation and to promote community awareness.

Six years of love went into this third generation of airplanes for Fred LaForge. Just out of the paint shop with a similar paint scheme, the Harman Rocket gets the last few tweaks and final assembly. As Fred puts it "it flies like a magic carpet"

**Looking forward to seeing the Flintstone Rocket flying!!**

**"I haven't failed, I've found 10,000 ways that won't work."  
—Thomas Edison**

# As The Beacon Turns . .

Cableites have been busy with their projects; traveled to the far reaches of the world; joined together in the proverbial search for a fun place to fly for breakfast, brunch, or dinner; and taken that terrifying step into the wild blue yonder, trusting that their many hours of love and labor will hold together until they touch down again. Most of us other Cableites never hear about these adventures or possibilities. Along with other pertinent happenings affecting Cable Airport.....

*As The Beacon Turns . . . . .*

## Adventures of Max —The Sail Cat

*And the Fly Aweigh  
with Alison and Allan*

[www.sailblogs.com/member/flyaweigh](http://www.sailblogs.com/member/flyaweigh)

If you haven't checked in on the "blog" yet, I would encourage you to do so! If you ever planned a long vacation, Alison's writing style will grab you by the lapels and you will be right there in the planning stages.....then in the boat with them!! An excerpt from the blog..... "We loaded up Max Cat and some lunch and sailed the boat from Ventura to Marina del Rey on Sunday, a 7 hour sail, or in this case, a motor. (Why is it that the wind is in our face the entire 7 hours *north* to Ventura, and then in our face the entire 7 hours *south* to del Rey???) Anyhow, back to Max, who was far happier on the boat than he was on the 10-minute car ride *to* the boat. He didn't hoark, which he usually does in the first hour of a sail, and happily, he never looked seasick at all. In fact, he seemed quite content, especially after he found a good sleeping spot on the stern bunk.

Another hurdle is the kitty life jacket, which he seems completely incapable of enduring. He waits patiently while we zip and snap the thing on him, and then he takes 2 steps and falls heavily on his side, looking about without moving his head, as though suddenly paralyzed. Admittedly, the life jacket wasn't made for cats, but it seems they don't *make* life jackets for cats -- so this is the smallest doggie-sized life jacket, which, once he realizes he is not paralyzed, he easily shrugs out of. We'll keep working on that one ... The adventures of Max continue, as do ours."

## NEWS FROM CABLE FBO's

### Maniac –Mike Café

September, Labor Day weekend jammed with last of the summer vacations of the year for many, as school is just around the corner. Autumn is upon us, as the weather is doing what the weather does best, change, and daily. What beautiful weather we had on the 22<sup>nd</sup> of August thanks to the Polley's hosting a wonderful fly-in with many beautiful planes flying in and from the airport in attendance, which by the way, kept the crowd at the café happy watching all of the aircraft activity.

Corvettes convene at Maniac-Mikes... The Pomona Valley Corvette Club has worked out an agreement with the Café to host a bi-monthly Corvette owners gathering. The café is open and serving from the lunch menu and the car owners are chatting about the latest and greatest in the Corvette world. If you own a Corvette, you are welcome to join in. Thursday evening 6:00pm to 9:00pm, dates are as follows; Sept. 3, Sept.17, Oct. 1, Oct. 15, Oct. 29, etc. (every other Thursday).

Water Conservation, a big topic in the news at this time. As a food establishment, we are required by law to practice safe food handling at all times, and that requires a lot of water. In a way of conserving, we recycle as much of our water that we possibly can. All of the water not consumed at the tables is used to water the outside and inside plants. Water collected from rinsing vegetables is used on the outside yuccas and century plants. It may not seem like a lot, but from the tables alone we average 5 gallons a day, in the back about 15, or 20 gallons a day times 7 or about 140 gallons a week. We also recycle all of our cans, glass and plastic bottles. We encourage everyone to do your part in recycling whenever possible.

Thank you, for your continued patronage.

Maniac-Mike

### Foothill Aircraft Service and Parts

Remember that Cable Airport Tenants receive a \$5 discount on shop labor. Thank you for your continued patronage. 909-985-1977.

## CLUB NEWS

**Cable EAA Chapter 448** Meets second Saturday of the month, 1130am at the chapter facility on the north side of the field. Look for the blue building with the EAA eagle wings. **Next meeting, Sept 12** 11:30am  
WEB site: [www.eaa448.org](http://www.eaa448.org)

**Civil Air Patrol Squadron 25** Meets **every Tuesday** at Cable Airport in the CAP HQ on Benson Ave from 6:30pm to 9:00pm. Call (909)982-4014 for information.
